

GIRISH PATIL

Python Developer | Data Analytics | AI&ML | Research & Technical Documentation Specialist
Bengaluru, India | +917022954984 | girishpatilm22@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

MCA graduate with hands-on experience in Python development, data analytics, and machine learning. Skilled in building scalable web applications using Django and applying ML algorithms using scikit-learn and Pandas. Experienced in data preprocessing, exploratory data analysis (EDA), and predictive modeling. Passionate about leveraging AI-driven solutions to solve real-world problems and deliver actionable insights.

EDUCATION

Master of Computer Applications (MCA) | VTU – Rajarajeswari College of Engineering, Bangalore | Dec 2021 – Dec 2023 | CGPA: 8.41

B.Sc. Computer Science | GUG – Om SV Degree College, Bidar | Jun 2018 – Dec 2021 | CGPA: 7.6

EXPERIENCE

1. Freelance Academic Content Writer & AI/ML Documentation Specialist | Remote | 2023 – Present

- Prepared technical documentation for AI, Machine Learning, Data Science, and Full Stack projects
- Structured research papers (IEEE/APA) including methodology, results, and analysis
- Worked with AI-generated content and evaluated outputs from language models (LLMs)
- Applied prompt engineering techniques to improve response quality and accuracy

2. Python Developer Intern | Anchorworld Technology Services Pvt. Ltd, Bengaluru | 6 Months

Automated data workflows using Python, Pandas, and NumPy, Built internal analytics tools to improve reporting efficiency, Performed data preprocessing, cleaning, and exploratory data analysis.

PROJECTS

1. Gym Web Portal – Full-Stack Web Application | Python, Django

Tech: Python, Django, HTML, CSS, Bootstrap

- Developed a scalable Django-based web application with authentication and admin dashboard
- Implemented modules: user registration, trainer management, plans, and booking system
- Designed responsive UI and optimized backend performance

2. Rainfall Prediction Analysis | Python, scikit-learn

Tech: Python, scikit-learn, Pandas, Matplotlib

- Built a regression model to predict rainfall using historical weather data
- Performed data cleaning, feature selection, and EDA
- Achieved ~80% accuracy and identified seasonal trends

SKILLS

Programming: Python, SQL, JavaScript, HTML, CSS

AI/ML & Data Science: Machine Learning, Supervised Learning, Regression, Classification, Data Preprocessing

Libraries & Tools: scikit-learn, Pandas, NumPy, Matplotlib, PyTorch

Frameworks: Django, Flask

Data Visualization: Power BI, MS Excel

Databases: MySQL, SQLite

Generative AI: LLMs, Prompt Engineering, ChatGPT, AI Tools, Model Evaluation

Soft Skills: Problem-Solving, Communication, Adaptability, Time Management

CERTIFICATIONS

- Udemy – Data Analysis with python.
- PW Skills –Python for AI, Full Stack Data Science.
